

PRESS RELEASE**Southern Cable secures RM403.6 million supplementary contract from Tenaga Nasional Berhad**

- *One-year contract extension to supply underground power cables and conductors to national grid amid Malaysia's power infrastructure buildout*
- *Group's orders in hand expand to over RM1 billion, providing earnings visibility until 2027*

Kedah, Malaysia, 2 July 2026 - Cable and wire manufacturer Southern Cable Group Berhad (Southern Cable, the Group, 南方电缆集团, Bloomberg: SCGBHD MK) continued to strengthen its orders pipeline for the expansion of Malaysia's power infrastructure, securing a supplementary RM403.6 million supply contract from Tenaga Nasional Berhad (TNB).

The contract, awarded to the Group's wholly-owned subsidiary Southern Cable Sdn Bhd, entails the supply of underground power cables and conductors to TNB's Distribution Network Division.

The agreement reflects TNB's exercise of an add-on option under the original contract awarded in February 2025. The new order supplements the original contract value and ensures continued supply over an additional one-year term from August 2026 until August 2027. Including the latest contract, the Group's total orders in hand have expanded to over RM1 billion, providing clear earnings visibility until 2027.

"Securing this supplementary contract from TNB reflects sustained demand for power cables and validates our technical capabilities in meeting strict reliability standards required for the national grid.

Malaysia's power sector continues to exhibit strong growth, driven by renewable energy integration, rapid data centre expansion, and industrial developments. While maintaining consistent delivery of our robust orders in hand, we continue to expand our capacity and product portfolio to capitalise on opportunities."

Mr. Tung Eng Hai ("陈永海"),
Managing Director of Southern Cable Group Berhad

As Malaysia accelerates its ongoing national grid modernisation under the National Energy Transition Roadmap, Southern Cable remains a key supply partner in the infrastructure buildout. The Group has consistently secured contract awards from TNB, totaling more than RM900 million since 2025.

SOUTHERN CABLE

SOUTHERN CABLE GROUP BERHAD

201901011439 (1320767-M)

INCORPORATED IN MALAYSIA

Southern Cable's long-term growth prospects are underpinned by its expansion initiatives. Recently, the Group obtained product certification for its high-capacity underground transmission cable with conductor sizes of up to 1,800 sq. mm., advancing its ability to contribute to future grid developments.

To support long-term orders and accommodate future requirements, the Group's planned capacity addition of 5,000 km in cable and wire capacity by end-2026 is expected to enhance its ability to fulfill rising market demand.

About Southern Cable Group Berhad (南方电缆集团)

Founded in 1993, Southern Cable is principally a manufacturer of cables and wires that are used for power distribution and transmission, communications as well as control and instrumentation applications. The key supporting activities for the cable and wire manufacturing operations include furnace and casting operations, and manufacturing of plastic compounds and wooden cable drums.

Through its factories in Kuala Ketil and Sungai Petani, Kedah, the Group has an annual production capacity of 60,000 tonnes and 18,000 tonnes for aluminium and copper rods, respectively, 54,980 km for cables and wires, and 7,800 tonnes for plastic compounds.

The Group's cables and wires are used in various industry sectors such as power distribution and transmission, telecommunications, building and construction, infrastructure, manufacturing and processing industries including oil and gas and petrochemical plants.

Additionally, the Group holds certifications for product compliance to local and international standards for its cables and wires. These certifications include Malaysian Standards (MS), IEC standards or British Standards, Energy Commission of Malaysia, Fire and Rescue Department of Malaysia, SIRIM QAS International, TÜV SÜD, and UL Standards.

Southern Cable is the registered supplier of cables and wires to Tenaga Nasional Berhad, Telekom Malaysia Berhad, Sabah Electricity Sdn Bhd, and Petroliam Nasional Berhad, as well as a supplier to Sarawak Energy Berhad.
